

What is the Childrens University?

The Children's University™ is a national organisation that provides 7 to 14 year olds with exciting and innovative learning activities and experiences outside normal school hours. We celebrate achievement and reward participation through our certificates, which are presented to our students at a prestigious Graduation ceremony held annually at a 'real' University. Raising children's aspirations is important to us and we aim to develop the understanding that learning can be the satellite navigation to better places in life!

This brochure illustrates some of the activities that will be offered this Spring term for WLA High School Learners, although the actual list of clubs may change. Most of the activities will be offered free of charge or for a small donation.

Long term, we aim to involve other schools locally and enhance our provision to include a range of holiday clubs and weekend activities. To do this we need your help in two ways; firstly tell us what sort of activities you would like included and secondly do you have a skill or talent or time you could offer in support of the Children's University? Any offer of help will be welcomed, so please talk to a member of the WLA staff team, if you think you could make a positive contribution to the Children's University.
